CAPTURING THE LIGHT

Don't miss the opportunity to see the latest collection by world-famous artist Maria Luisa Hernandez when it arrives at The Canvas Gallery in Winchester this month. Maria says: 'Capturing the light is the essence of my work. It is always the light which catches my attention. That is my passion. Light is visible and invisible. The painting is built in an organic process of layers, slowly evolving until it comes to life. To a life without end. Without light nothing exists. Light is energy, light is love. Every time I paint, I become another.'

From January 14, canvasgallery.com
